Portfolio:

PERSONAL OBJECTIVES

I'm an aspiring backend software engineer with a focus on building scalable, secure and user-friendly systems. Proficient in python, databases and modular architecture. I'm actively growing a portfolio of API-driven applications. I seek opportunities where I can contribute technical expertise, collaborate within agile teams and learn from industry-standard projects. I have a strong growth mindset and eager to build impactful software and stay adaptive in an AI-driven tech landscape.

EDUCATIONAL BACKGROUND
